Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 4, 5, 23, and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. For example in claims 4, 5, 23, and 24 “a ceiling plate which can be opened and closed is used,”; “a cover which covers an inner periphery of the closed ceiling plate is disposed, the surface of the article below the ceiling plate and the ceiling plate are fixed to each other through the cover,”, it is not clear how would the article below the ceiling plate and the ceiling plate are fixed to each other through the cover?, as it is clearly show on Fig. 4 that the ceiling plate (8) and cover (6) separated and spaced from each other?

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3721

In claim 5, lines 12 and 13 and claim 24, lines 11 and 12 “, *a cover* which covers an inner periphery of the closed ceiling plate is disposed,” and further in claim 5, lines 18 and 19 and claim 24, lines 17 and 18 “*a cover* which covers an upper portion of the automatic document feeder”; is vague, indefinite, and/or confusedly worded as it is not clear if applicants are refereeing here to the same cover or there are two different covers?
